

Reports

This section explains how to generate and send the daily notices that remind borrowers about overdue, almost-due, or lost items, and how to run the reports that tell you which items need to be put on hold, sent elsewhere, or re-shelved. It also explains how to use the Item Report and Adhoc Stats features to help manage your collection.

Circulation Reports

The Circulation Reports window is opened by clicking on its button:

The window opens separate from the rest of Horizon, so you can still access circulation functions while reports are being generated and output.

Circulation Notices

Printable Quick Guide: Circulation Notices

Circulation Notices must be run daily.

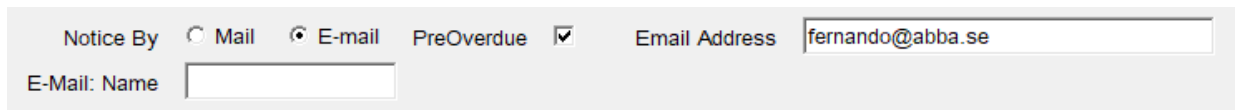

Running notices is a 2-step process: they have to be **generated and then outputted**. There are 2 batches to run, *Auto Notices* and *Pre-Overdue Notices*.

Auto Notices will send reminder emails to borrowers with overdue items, tell borrowers about items being held, and print letters for borrowers with lost items.

Pre-Overdue Notices will send reminder emails to borrowers 4 days before items are due back.

Emails about overdue and held items will only be sent to borrowers who have an email address record in their borrower record.

Pre-overdue reminder emails will only be sent to borrowers who also have the *PreOverdue* option selected in their record:

The form shows the following fields and options:

- Notice By: ☐ Mail, ☒ E-mail
- PreOverdue: ☒
- Email Address:
- E-Mail: Name:

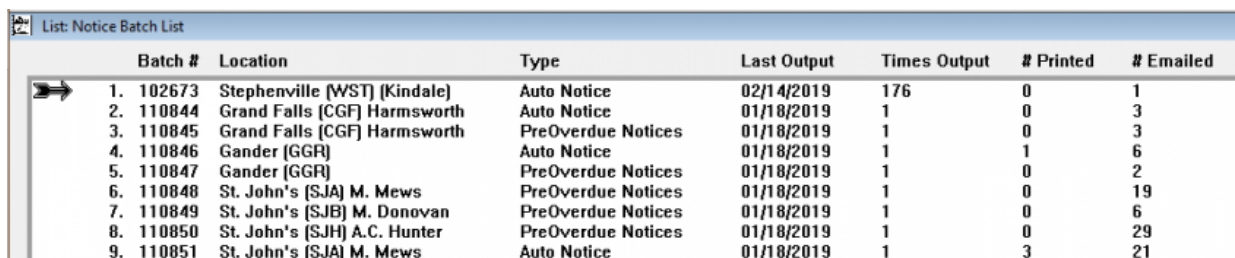

You can check this by going into the borrower's record from the checkout window:

- search for the borrower or scan their card
- press [F6]

To begin generating the notices:

- open Circulation Reports
- select from top menu **Notices > Notice Output**

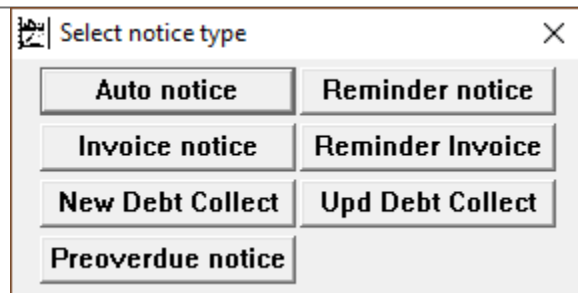

The Notice Batch List opens. It lists all the notices that have been recently generated across the province. The notices that you are about to generate will appear at the bottom of this list.

Batch #	Location	Type	Last Output	Times Output	# Printed	# Emailed
1. 102673	Stephenville [WST] (Kindale)	Auto Notice	02/14/2019	176	0	1
2. 110844	Grand Falls [CGF] Harmsworth	Auto Notice	01/18/2019	1	0	3
3. 110845	Grand Falls [CGF] Harmsworth	PreOverdue Notices	01/18/2019	1	0	3
4. 110846	Gander [GGR]	Auto Notice	01/18/2019	1	1	6
5. 110847	Gander [GGR]	PreOverdue Notices	01/18/2019	1	0	2
6. 110848	St. John's [SJA] M. Mews	PreOverdue Notices	01/18/2019	1	0	19
7. 110849	St. John's [SJB] M. Donovan	PreOverdue Notices	01/18/2019	1	0	6
8. 110850	St. John's [SJH] A.C. Hunter	PreOverdue Notices	01/18/2019	1	0	29
9. 110851	St. John's [SJA] M. Mews	Auto Notice	01/18/2019	1	3	21

To generate the Auto Notices:

- click on **New Batch**
- click on **Auto notice**
- select your location in the list
- click on **OK**

The dialog box titled "Select notice type" contains the following buttons:

- Auto notice
- Reminder notice
- Invoice notice
- Reminder Invoice
- New Debt Collect
- Upd Debt Collect
- Preoverdue notice

If there are no notices to generate then Horizon will tell you. That often happens at smaller sites.

Generate the Preoverdue Notices in a similar way:

- click on **New Batch**
- click on **Preoverdue notice**
- select your location in the list
- click on **OK**

When both sets of notices have been generated scroll to the bottom of the list. The quickest way is to press **[Ctrl] + [End]** on your keyboard.

Select the notices for your location, making sure that the last output date is blank:

	Batch #	Location	Type	Last Output
1044.	111914	Gander (GGR)	Auto Notice	02/15/2019
1045.	111915	Gander (GGR)	PreOverdue Notices	02/15/2019
1046.	111916	Port Aux Basques (WPB)	Auto Notice	02/15/2019
1047.	111917	Port Aux Basques (WPB)	PreOverdue Notices	02/15/2019
1048.	111918	Bell Island (ABI)	PreOverdue Notices	02/15/2019
1049.	111919	Holyrood (AHD)	Auto Notice	02/15/2019
1050.	111920	Holyrood (AHD)	PreOverdue Notices	02/15/2019
➡ 1051.	111921	Deer Lake (WDL)	Auto Notice	
1052.	111922	Deer Lake (WDL)	PreOverdue Notices	
Selection		1051-1052	Total: 1054	

If the date is not blank it means that someone else has already output the notices for your site. **Don't output them again.**

Click on **Output** to email and print the notices. **If you don't do this then messages will not be sent.**

Emails will be automatically sent. If any emails cannot be sent then an error message will appear, and you will need to submit a support ticket to IT. See the section on [Troubleshooting](#).

If any letters have been printed for lost items, check the shelves for the items before mailing.

If the Printer Jams and Notices are Lost

Notices can be reprinted:

- highlight the Auto Notices for today for your location
 - if you are coming back later to do this make sure to choose the correct date
- click on **Select**
- a list of borrowers who should have received notices appears
 - notices sent by email have a blue tick in the email column
- highlight the notices to be reprinted
- click on **Output** to print

The screenshot shows a window titled "Notices Selective Output". It contains a table with the following data:

	Batch No.	Location	Borrower	Amount	Balance	Output Date	Email
➡	1. 111936	Carbonear [ACR]	Appell, Melville Rob	0.00	0.00	02/15/19	
	2. 111936	Carbonear [ACR]	Squibb, Carol Anne	0.00	0.00	02/15/19	✓

Below the table, there is a "Selection" field, a "Total: 2" label, and five buttons: "Output", "Select All", "Sort...", "Display...", and "Force Print".

Request Pull List

Printable Quick Guide: Requests and Holds

The Pull List is the list of all items that need to be fetched from the shelves and put on hold for borrowers or sent to other locations. Scan the items into the checkin and Horizon will tell you what to do.

The pull list must be requested daily, and at smaller sites it may often be empty.

To request the pull list:

- open Circulation Reports
- select from top menu **Requests > Request Pull List**
 - this message will appear:

It can take some time before the list is generated, but while that's happening you can go back into Horizon and use other circulation functions if need be.

You will need to print the list and go find the items on the shelves. However when first generated it provides too much information about each item to print tidily:

The screenshot shows a window titled "List: Request Pull List (Using Pull List Priority)". Inside is a table with the following columns: Coll/Item Status, Copy, Call No., Barcode/Author, Pickup, Title, and Specific. The table contains 7 rows of data, each representing a request for a specific item. Below the table, there is a "Selection" field, a "Total: 30" label, and several buttons: "List Pulled", "Keep List", "Keep Item", "Delete Request(s)", "Sort...", and "Display...".

Coll/Item Status	Copy	Call No.	Barcode/Author	Pickup	Title	Specific
1. Adult NFic Checked In	2017	916.8 AF8	33296031116168	sjh	Africa.	bib
2. Adult NFic Checked In		741.24 B64	Borgeson, Bet. 33296006750827	sja	Colored pencil for the serious beginner /	bib
3. Adult Fic DVD Checked In		FIC BOO	33296030869320	sjb	Boogie nights ; [videorecording (DVD)]	54. bib
4. Adult Fic DVD Checked In		FIC MUR	33296031557312	sjh	Murder on the Orient Express.	bib
5. Adult Fic DVD Checked In		FIC EXP	33296026998281	sjb	The experiment. [videorecording (DVD)]	bib
6. Adult Fic DVD Checked In		FIC DEV	33296018948468	sjb	Devil. [videorecording (DVD)]	bib
7. Adult Fic DVD Checked In		FIC KIL	33296031557577	sjb	The killing of a sacred deer.	bib

So click on **Display** and choose these four columns:

◦ *Coll*

◦ *Call no.*

◦ *Author*

◦ *Title*

If your site holds multiple copies of items then you will need to select *Barcode* too.

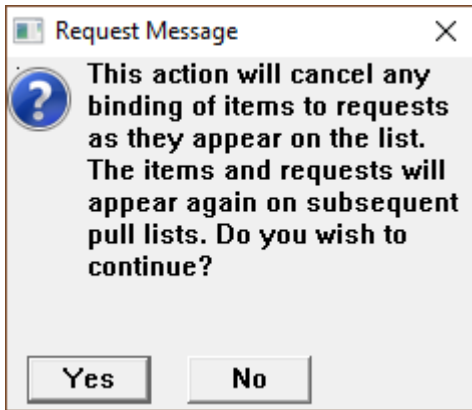

Click on **OK** and the list will look a lot tidier, and can now be printed with one item per line:

Coll	Call No.	Author	Title
1. Adult NFic	916.8 AF8		Africa.
2. Adult NFic	741.24 B64	Borgeson, Bet.	Colored pencil for the serious beginner /
3. Adult Fic DVD	FIC MUR		Murder on the Orient Express.
4. Adult NFic	616.342 B81	Browne, Jennifer	Happy, healthy gut : the natural diet
5. JUV PICTURE BK - EASY	X LOB	Lobel, Arnold.	Frog and Toad all year /
6. Sun Life Financial Musical	KEYBOARD		Digital keyboard : 61-note. [instrument]
7. Sun Life Financial Musical	KEYBOARD		Digital keyboard : 61-note. [instrument]
8. Sun Life Financial Musical	GUITAR STEEL		Acoustic guitar : full size, steel 6-string.
9. Adult NFic NL	641.5 R54	Roberts, Sheilah, 1954-	For maids who brew & bake : rare &
10. Sun Life Financial Musical	PIANO 88NOTE		Digital piano : 88-note. [instrument]
11. Sun Life Financial Musical	PIANO 88NOTE		Digital piano : 88-note. [instrument]
12. Sun Life Financial Musical	VIOLIN 1/4		Violin : 1/4 size. [instrument]
13. Sun Life Financial Musical	ELECTRIC GUITAR		Electric guitar : full size, steel 6-string.
14. Sun Life Financial Musical	VIOLIN 4/4		Violin : 4/4 size. [instrument]

When you have printed the list click on **Keep List**. This will make sure that items keep appearing in the list until you have found them and checked them in.

Click on **Yes** when this pop-up appears:

Never click on List Pulled. This will delete everything from the list for the next 24 hours.

Never click on Delete Request(s). This will cancel all the requests made by borrowers. If you need to delete a request for a borrower, do that from the Borrower's Request List. See the section [Requests and Holds](#).

When you have found the items check them in. Horizon will tell you who to place each item on hold for.

If you cannot find an item in the list, then after a few days you will need to change its status to *trace*. See the section [Adding and Editing items](#).

Expired and Cancelled Holds

The Expired and Cancelled Holds Report provides a list of items being held that the borrowers have not picked up on time. The items need to be removed from the holds shelf and checked in. Horizon will then tell you if the item needs to be held for another borrower, placed in transit, or re-shelved.

This report must be generated daily, and at smaller sites it may often be empty.

To generate the report:

- open Circulation Reports
- select from top menu **Requests > Expired/Canceled**

List: Expired or Canceled Holds				
Title/Location	Item Barcode	Status	Date Held	Expire Date
1. Chase. sjh	33296031081289	Hold Expired	02/11/19	02/18/19
2. Father Brown. Season six. [videorecording (DVD)] sjh	33296031899508	Hold Expired	02/11/19	02/18/19
3. Light in August : the corrected text. sjh	33296014268259	Hold Expired	02/09/19	02/16/19
4. Mary Poppins. [videorecording (DVD)] sjh	33296028001001	Hold Expired	02/11/19	02/18/19
5. Fear : Trump in the White House / sjh	33296031821858	Hold Expired	01/30/19	02/06/19

Selection Total: 10

[Edit](#) [New](#) [Sort...](#) [Display...](#)

Remove the items from the holds shelf and check them in. If an item cannot be found on the holds shelf then check the regular shelving. If an item is not there either then you will need to set its status to *trace* using the Item Status Editor. See the section [Adding and Editing items](#).

I didn't have time to run my notices today!

Generate and output them as soon as you can. Horizon will generate all notices that should have been sent since you last ran notices.

Be aware that running notices late gives borrowers less notice about items that are almost due back and items that are being held for them.

Online Stats

Every day you need to submit circulation and activity statistics for your site.

This is done through the [Library Stats System](#). Some of the stats are automatically completed by Horizon, and they appear in gray. Some stats have to be completed manually, and they appear in blue or yellow:

Stats for: March 1, 2019

Item Report

Item Report is useful for managing your collections. You ask it to search for items in a particular collection, status, and location and it will return a list of results.

As examples, it can provide lists of all items that:

- are currently checked out
- have not been checked out in the last 4 years (or any other time period)
- are in the Adult Fiction NL collection
- need to be traced
- are on order for your location

You can *compound* the search, meaning that you can ask it to search based on 2 or more conditions.

For example, a search for *'items that need to be traced from the DVD location at Bay Roberts'* will use 3 conditions:

status is 'trace'

AND

item type is 'dvd'

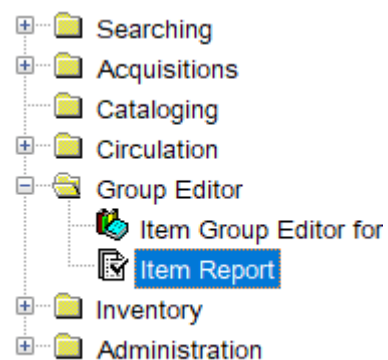

AND

location is 'abr'

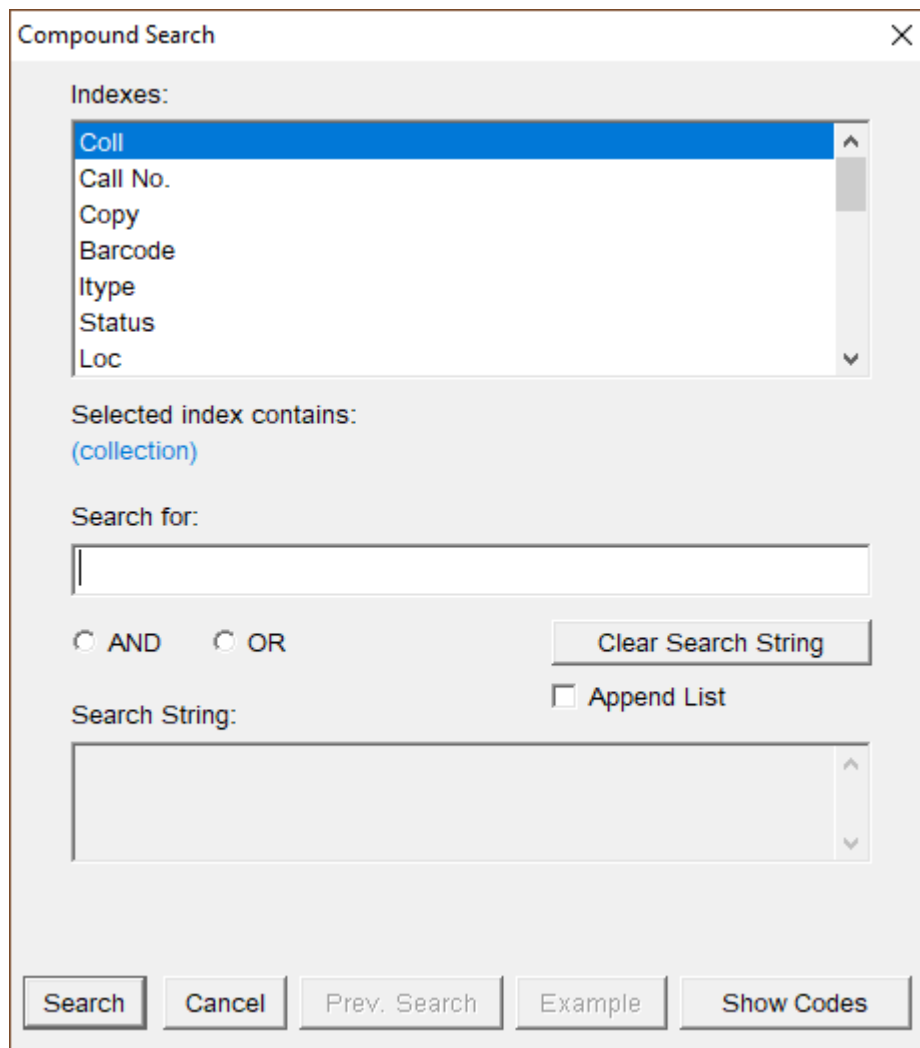

See [Compound Search](#) for how to do this.

You can print the list of results, and you can also sort the list by collection and call number, which will help when you are searching the shelves for items.

Item Report is opened by clicking on , or it can be found in the navigation bar:

Double-click on it to open the compound search box:

The image shows a 'Compound Search' dialog box with a close button (X) in the top right corner. It contains a list of indexes with 'Coll' selected. Below the list, it shows 'Selected index contains: (collection)'. There is a 'Search for:' text input field. Below this are radio buttons for 'AND' and 'OR', and a 'Clear Search String' button. A checkbox labeled 'Append List' is also present. Below these is a 'Search String:' text area. At the bottom, there are five buttons: 'Search', 'Cancel', 'Prev. Search', 'Example', and 'Show Codes'.

Compound Search

Indexes:

- Coll
- Call No.
- Copy
- Barcode
- Itype
- Status
- Loc

Selected index contains:
(collection)

Search for:

☐ AND ☐ OR

☐ Append List

Search String:

Select an index in the top half of the box and then type in the code for it in the '*Search for*' field. Click on **Search** to see the list of results.

If you don't know what code to use then click on **Show Codes**:

Code Lookup: Collection Codes

	33296010982424		b	pr		aty	

Selection Total: 7029

Edit New Sort... Display...

Clicking on **Display** lets you choose which information to display for each item, which is useful if you need to print the list.

Keep the columns highlighted that you want to display:

The 'Display Options' dialog box is shown. On the left, under 'Choose columns to display', a list of columns is shown with 'Coll', 'Call No.', 'Author', 'Title', 'Barcode', 'Itype', 'Status', and 'Loc'. The first five columns are highlighted in blue. On the right, under 'Display properties', the 'Coll' column is selected in a dropdown. Below this, 'Position' is set to 1, 'Width' is 8 characters, and 'Label' is 'Coll'. There is an unchecked checkbox for 'Right justify'. At the bottom, 'Code' is set to 'code' (radio button) and 'Value' is set to 'short' (radio button).

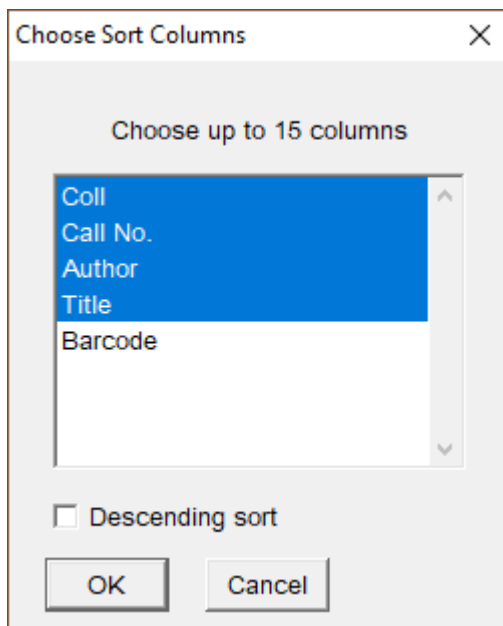

The list is now clearer to read:

A screenshot of a library list table. The table has five columns: Coll, Call No., Author, Title, and Barcode. The first two columns are highlighted in blue. The table contains 12 rows of data. A mouse cursor is pointing at the first row.

Coll	Call No.	Author	Title	Barcode
1. jx	X ONE		1-2-3 I can count /	-31088
2. jx	X HUT	Hutchins, Pat,	1 hunter /	-73414
3. nf	909.82 ON2		100 events that shook our world : a history in	33296012581968
4. jnf	155.2 GER	Gerry, Lisa.	100 things to make you happy /	33296029787632
5. jnf	796.962 DUP	Duplacey,	1000 point players /	-495687
6. nf	745.5 ON2		101 crafts under \$10 : easy-to-make ideas for	33296010982424
7. jnf	520 GAL	Gallant, Roy A.	101 questions and answers about the universe /	-196423
8. jnf	004.67 WAL	Wallace, Mark.	101 things to do on the Internet /	33296007211456
9. nf	629.223 T68	Traister, John	101 vantastic ideas to improve your van /	-10873
10. nf	745.5 ON2		101 ways to stitch/craft create : quick & easy	33296020733049
11. nf	973.931 D97	Dwyer, Jim,	102 minutes : the untold story of the fight to	33296012699133
12. af	FIC PAT	Patterson,	10th anniversary.	33296019826127

It can also help to sort the list, by collection and into alphabetical order. Click on **Display** and choose what to order by:

...and the list is now sorted, and good to print:

	Coll	Call No.	Author	Title
➡	1. af		Scharer,	Age of Light : A Novel.
	2. af		Wiggs, Susan.	Between you & me.
	3. af	FIC ABB	Abbott, Jeff.	Downfall.
	4. af	FIC ABB	Abbott, John.	Scimitar.
	5. af	FIC ABB	Abbott, John.	Scimitar.
	6. af	FIC ADL	Adler, Elizabeth	The rich shall inherit /
	7. af	FIC ADL	Adler-Olsen,	The keeper of lost causes.
	8. af	FIC ALE	Alexander,	Dangerous to know.
	9. af	FIC ALF		Alfred Hitchcock's tales to make your teeth
	10. af	FIC ALL	Allen, Charlotte	Leftover dreams /
	11. af	FIC ALL	Allen, Sarah	The girl who chased the moon : a novel.
	12. af	FIC AND	Andrews, Mary	Blue Christmas.

Compound Search

To search using more than one condition you need to:

- select the **first index to search**
- enter the **first condition**
- select **AND** or **OR**
- select the **second index to search**
- enter the **second condition**, and so on

Compound Example: find items on order for your location

- select the index *Status*

- enter '*r*' into the *Search for* field

- select **AND**

- select the index *Loc*

- enter the 3 letter code for your location (for example '*amp*' for Mount Pearl)

- click on **Search**

Ittype
Status
Loc

Selected index contains:
(item_status)

Search for:
r

Ittype
Status
Loc

Selected index contains:
(location)

Search for:
amp

...and here are the results:

Coll	Author	Title	Barcode
1. afsc	Thorne, Sally	99 Percent Mine : A Novel.	acq2301770
2. afsc	Tudor, C. J.	Hiding Place.	acq2301912
3. af	Michaelides,	Silent Patient.	acq2302050
4. jnf	Milligan, Dustin	Little Courthouse on the Prairie : The Right to	acq2302550
5. jxbd	Bravi, Soledad	Noisy Book.	acq2302642
6. jnf	Edsel, Robert	Greatest Treasure Hunt in History : The Story of	acq2302880
7. jnf	Dorling	Calm: Mindfulness for Kids.	acq2302930
8. jnf	Dorling	Smithsonian.	acq2303071
9. jf	Florence,	He who dreams.	acq2306416

Compound Example: listing items needing to be traced at your location

- select the index *Status*
 - enter 'trace' into the *Search for* field
 - select **AND**
 - select the index *Loc*
 - enter the 3 letter code for your location (for example '*amp*' for Mount Pearl)
 - click on **Search**
-

Cancelling a Search

If you decide to cancel a search this pop-up message will appear:

Click on **Cancel**, otherwise Horizon will try to fetch the entire database of items.

Press **[Esc]** to close the Item Report window.

Adhoc Stat Reports

Horizon can generate detailed reports, such as a breakdown of how many items are in each collection at a site, or how much revenue was taken in lost and late fees over a chosen period.

These reports are generated by the Adhoc Stats Report feature found in the navigation bar:

Double-click on Adhoc Stats Reports to open the generator box. Select:

- the *type* of report
- one or more *locations* to generate it for
- if you have chosen a daily report then also enter a date in the *Date* field

If you are not working at Bell Island then deselect that location before selecting your site

AdHoc Statistical Report Generator (Horizon:horizon)

Choose a Report Type and one or more Locations

Report Type	Locations
Monthly Report - Circulation Details	abi - Bell Island (ABI)
Monthly Report - Cash Management	abr - Bay Roberts (ABR)
Monthly Activity Report - By Day-of-week	abs - Brigus (ABS)
Monthly Activity Report - By Hour	acr - Carbonear (ACR)
Monthly Report - Overview	acs - Conc Bay South (ACS)
Monthly Report - Collection Snapshot	aex - Don't use
Monthly Report - Call Number Collection S	afh - Fox Harbour (AFH)

Date: 02/15/2019

Print Cancel Save to File About

In the example above the monthly Collection Snapshot report is going to be generated for Bay Roberts (ABR).

Click on **Save to File** if you want to keep the report.

To open the saved file use *Wordpad* or *Notepad* because both programs retain the column formatting.

A monthly collection snapshot looks like this:

Monthly Report - Collection Snapshot for Feb 2019

Locations on this report: Bay Roberts (ABR)

Items: Coll. IStat

Description	Feb 2019	Jan 2019	%chg	Feb 2018	%chg	2019 AVE	2018 AVE	%chg
AF - Adult Fic	6779	6783	-1	6372	6	6781	1060	539
ASR - Adult Fic A	90	90	0	90	0	90	15	500
ASR - Adult Fic A	0	0	0	0	0	0	0	0
AF - Adult Fic -	6	6	0	4	50	6	0	100
AVR - Adult Fic B	9	7	28	6	50	8	1	700
AVR - Adult Fic B	0	0	0	0	0	0	0	0
AVR - Adult Fic B	0	0	0	0	0	0	0	0
AVR - Adult Fic D	1692	1639	3	1445	17	1665	240	593
AVR - Adult Fic D	27	28	-4	32	-16	27	5	440
AVR - Adult Fic D	0	0	0	0	0	0	0	0
AVR - Adult Fic D	6	6	0	0	100	6	0	100

The report can run to several pages and provides a comprehensive breakdown of how many items are in each collection, as well as how many items were in the collections 1 month ago and 1 year ago.

The descriptions are truncated, so some can be slightly cryptic – for example in ‘Adult Fiction A’, the ‘A’ is for ‘Audio’. Similarly ‘B’ is for ‘Blu-Ray’, ‘D’ is for ‘DVD’ and so on.

Also, be aware that the report lists how many items per collection Horizon has recorded for your site.

This can differ from reality if weeded books were not discarded in Horizon, or if books have gone missing without staff being aware.

The Item Report feature can be used to list exactly which items Horizon has recorded for the collections at your location.

Revision #29
